IMPORTANT SAFETY RECALL

Driver Airbag Module

Dear [Name],

This notification is being sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2007 through 2009 model year Dodge Sprinter] vehicles.

WHY DOES MY VEHICLE NEED REPAIRS?

The driver airbag inflator in your vehicle ^[1] may rupture when deploying during a crash. The potential for such ruptures may occur in some of the subject airbag inflators after several years of exposure to persistent conditions of high absolute humidity. **An inflator rupture, during airbag deployment events, could result in metal fragment(s) striking the vehicle occupant(s) resulting in serious injury or death.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE

FCA will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace the driver airbag module. Certain 2007 and 2008 MY vehicles will also require a steering wheel replacement. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The estimated repair time is one hour. To minimize your inconvenience, we recommend that you first call your dealer and provide them your VIN (upper left of this letter) so that the necessary part(s) may be pre-ordered and a service appointment scheduled. Please bring this letter with you to your dealership.
