IMPORTANT SAFETY RECALL

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA US has decided that a defect, which relates to motor vehicle safety, exists in certain 2014 and 2015 Jeep Grand Cherokee and 2012 through 2014 model year Chrysler 300/Dodge Charger vehicles.

The problem is... Your vehicle may roll away, striking and injuring you, your passengers, or bystanders, if the vehicle’s engine is left running, the parking brake is not engaged, and the transmission is not in the “PARK” position before exiting the vehicle.

Drivers may inadvertently fail to achieve the “PARK” position before exiting the vehicle. The electronic shift lever in your vehicle does not move like a conventional shifter. Your shift lever is spring loaded and returns to the same center position like a joystick, always returning to the center position after the desired gear is selected.

What your dealer will do... FCA will repair your vehicle free of charge. To do this, your dealer will install new software to include an “Auto Park” feature which eliminates the possibility of the driver inadvertently failing to place the transmission into “PARK” prior to exiting the vehicle. The work will take about two hours to complete. However, additional time may be necessary depending on service schedules.

NOTE: You will receive an “Auto Park” addendum card explaining the vehicle’s new “Auto Park” feature. After your vehicle receives the software update, please review the addendum card with all of the drivers of your vehicle and then store the addendum card in the owner’s manual for future reference. Your dealer will also review/demonstrate this new “Auto Park” feature and answer any questions or concerns.

What you must do to ensure your safety... Simply contact your Chrysler, Jeep, Dodge or RAM dealer right away to schedule a service appointment. Please bring this letter with you to your dealer.

NOTE: To prevent any unintended vehicle movement, always fully apply the parking brake before exiting the vehicle.
