CUSTOMER SATISFACTION NOTIFICATION

Anti-Lock Brake System Module

Dear [Name],

At FCA US LLC, we recognize that the success of our business depends on the satisfaction of our customers. We are constantly monitoring the quality of our products and looking for opportunities to improve our vehicles even after they are sold. Because your long-term satisfaction is important to us, we are contacting you on important improvements we would like to make to your vehicle ^[1]. This will be done at no charge to you.

We are recommending the following improvements be performed on certain [2019 (DT) RAM 1500 Pickup] vehicles.

WHY DOES MY VEHICLE NEED REPAIRS?

During a Low Speed Collision Mitigation (LSCM) event (under 32 mph), the vehicle will intend to slow down to avoid a collision. If the driver elects to accelerate during this event, the brake module will take 2 seconds to completely release brake pressure before effective throttle response can be provided by the engine.

HOW DO I RESOLVE THIS CUSTOMER SATISFACTION NOTIFICATION

FCA will repair your vehicle free of charge (parts and labor). To do this, your dealer will reprogram the Anti-Lock Brake System Module (ABS) with new software and perform the ABS Initialization and Assembly Check routines to configure the new software. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The estimated repair time is one hour. We recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.

We apologize for any inconvenience, but are sincerely concerned about your satisfaction. Thank you for your attention to this important matter.
